

Crazy 8's Instructions

Objective

- To be the first player to get rid of all of his/her cards.

Contents

- 40 cards
- Instructions

Setup

- Shuffle all the cards.
- One person deals each player 5 cards, face-down.
- The rest of the cards are placed face-down in the center as the draw pile.
- The dealer takes one card from the draw pile, turns it face-up, and places it next to the draw pile – this will be the discard pile (if this card is an “8”, pull another card and place the “8” back in the draw pile).
- All “8” cards are wild, and can be played as any color or number.

Playing the game

- Player 1 (player to the left of the dealer) places one of his/her cards on the discard pile that matches either the color or the number of the

card on the pile.

- Play continues to the left, with each player placing a card on the discard pile.
- If a player puts an “8” card on the discard pile, he/she gets to choose the color or number that the next player must play.
- If a player does not have a playable card (*does not match the color or number of the top card in the discard pile*) or does not have an “8”, he/she must draw a card from the draw pile until a playable card is drawn. If there are no more cards in the draw pile, the player must pass the turn to the left.

Winning

- The first player to discard all of his/her cards wins.
